

ABOUT

My role as a UXer centres around putting users at the core of product design, focusing on user experience as well as improving design practices and consistency. I concentrate on creating an appealing product that users want to engage with, through strong attention to detail, pushing boundaries with visuals and integrating modern frames of reference to convey the brand.

Through my experience, I have learnt the significance of user experience and user interface to guide the aesthetics of design, and the overall impact UX have on shaping a product.

Here to make a real impact on user journeys in our everyday lives. Above all else, I want to make a difference in the world, a real, quantifiable impact.

EXPERIENCE

- cinch - Present

Senior UX Designer

- Working in squads, adopting the OKR (Objective Key Results) approach
